

Training courses held by GIZ SUTP until March 2016 – Summary Sheet

Training courses conducted by GIZ-SUTP until March 2016

One of GIZ-SUTP’s key activities is the design, development and delivery of training courses on various topics related to sustainable urban transport in Asia, Latin America, Europe and Africa. Until March 2016, GIZ-SUTP conducted more than 140 courses that included more than 5000 participants. Topics have varied from general issues such as Sustainable Urban Transport to specific issues such as Public Bike Schemes, Travel Demand Management, Planning for Mass Transit and Non-Motorised Transport systems, Financing Urban Transport, Mass Transit Options and Bus Rapid Transit Planning are a few to name.

Given below are two tables: one providing details on the locations, topics, languages, partners and duration of courses held by GIZ-SUTP, and the other provides information, chronologically, on the course dates, locations and number of participants of each course.
